## **Just In Time for the Holidays, ScanCafe Gift Cards Make it Easy to Protect Memorable Photos for Generations to Come**

*Redeemable for Scanning and Restoring Photos, Negatives and Slides, ScanCafe Gift Cards Are the Perfect Holiday Gift for Family and Friends*

**SAN FRANCISCO, Calif.**, (November 19, 2007) – What better gift could one give this holiday season than the ability to protect one’s most precious memories? ScanCafe, an online service that takes the legwork out of scanning, restoring and organizing photos, negatives and slides, today made available gift cards for the holidays. ScanCafe Gift Cards can be redeemed to protect your most precious memories from fading away in the closet, making it easier to share them with family and friends. Gift cards can be purchased in a variety of denominations, starting at \$25.00, by visiting [www.scancafe.com/giftcards](http://www.scancafe.com/giftcards).

“Protecting one’s photos from damage – whether from general aging or from fire or water damage – is a gift that no one will forget,” said Sam Allen, CEO of ScanCafe. “With the ScanCafe Gift Card, recipients can send in loose photos, negatives, slides and even photo albums to be manually scanned, professionally restored and organized on a CD or DVD to share. ScanCafe Gift Cards really are gifts that keep on giving.”

With the ScanCafe Gift Card, recipients simply order scanning services online and punch in the redemption code on the card. They can then gather photos, albums, slides and negatives to ship to ScanCafe where they will be manually scanned, professionally restored and organized. The customer will then gain access to a secure online library to view and select their newly digitized images. Customers are only required to pay for the images they wish to keep, with a 50 percent minimum commitment. All selected photos are then scanned to a CD or DVD in high-resolution and the originals are sent back to the customer.

ScanCafe Gift Cards can be applied to scanning and restoration services, shipping or to order additional DVDs. Both three-day and overnight delivery options are available. To guarantee delivery by Christmas, gift card purchases must be made by December 19 for overnight delivery. ScanCafe electronic gift certificates are also available thru Christmas Day.

To purchase your gift cards or get started scanning your photos, negatives or slides, or for more information about ScanCafe, please visit [www.ScanCafe.com](http://www.ScanCafe.com).
